#### Safety Boots for Rescue Service – Maximum Protection with Maximum Comfort

This safety boot, specially developed for emergency medical services, combines modern protective technology, ergonomic comfort, and hygienic materials – ideal for demanding medical situations.

#### Features & Benefits:

- **Hydrophobic waterproof leather:** High-quality workmanship and water-repellent – reliably protects against moisture and dirt.
- **PURATEX® membrane:** Breathable yet fluid-proof – effectively protects against blood, bodily fluids, and even viruses.
- **Ergonomic, fully padded banding:** Prevents pressure points and supports comfort during long shifts.
- **Special heel and tongue bend:** Prevents creases and friction in the sensitive heel and instep area.
- **Comfort insole:** For optimal cushioning, ergonomic support, and fatigue-free standing and walking.

#### Safety & Function:

- **FITGO dial closure system:** Quick and easy on and off thanks to the dial closure and robust stainless-steel lace – no more annoying lacing.
- **PU bump cap:** Robust protection against abrasion in the toe area, ideal for hectic missions.
- **Steel toe cap:** Protection against impact and pressure loads.
- **Non-metallic penetration protection (S3):** Flexible, lightweight protection against pointed or sharp objects.
- **DUO nitrile/PU sole:** Slip-resistant, shock-absorbing, oil- and fuel-resistant.
- **3M Scotchlite™ reflectors:** Provide additional safety during operations in the dark or in low-visibility conditions.
- **Pull-on loop:** For quick, easy handling in an emergency.
